

# NE-4000 BSc Thesis Workplan for Fourth Year First Semester (Credit Hour-2.0)

Advanced Reactor Design Simulation Group (DU-ARDS)

Supervisor:

Co-supervisor:

Thesis Title: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Student information:

- (a) Name: \_\_\_\_\_  
(b) Roll No.: \_\_\_\_\_  
(c) Registration No.: \_\_\_\_\_  
(d) Session: \_\_\_\_\_

Instructions:

- (a) Read the Code of Conduct carefully.  
(b) Print and fill up the Thesis Agreement form.  
(c) Create a WhatsApp group and name it `ards_bsc_ne_<batch>_<name>` and add your supervisor and co-supervisor. E.g., `ards_bsc_ne_5th_rakib`.  
(d) Create a Overleaf project and name it `ards_bsc_ne_<batch>_<name>` and share the project with your supervisor and co-supervisor.  
(e) Populate the Overleaf project with the files downloaded from: [\(link\)](#)  
(f) reate a GitHub account and provide with your username/email address.  
(g) Download the 41/42 workplan template and fill it up by consulting with your supervisor and co-supervisor.  
(h) Report each week on Wednesdays/Thursdays for fourteen consecutive weeks. Tasks will be allocated/assigned on a weekly basis (based on your workplan). Your progress will be tracked per your attendance and delivery. The Supervision Record form must be completed to record each formal meeting ; this will also set the basis whether you will be deemed eligible and allowed to continue working with your supervisor/group .  
(i) Modeling: documentation = 1 : 1
